the market, from the name
synonymous with innovation**

Much more than just return of premium

AG ROP Select-a-Term[®] offers clients term insurance that ends when and how they want it. American General Life actively communicates with the policy owner to help evaluate their options before reaching the end of the level premium period. Clients may choose to:

- Surrender the policy for cash value, which is guaranteed to equal cumulative base premiums paid, at the end of the level premium period, less any outstanding policy loans
- Convert to permanent life insurance coverage at any time during the level premium period to a maximum conversion age of 70
- Stop paying premiums during the level premium period, resulting in a reduced paid-up policy that will end for the reduced face value at policy anniversary nearest insured's 95th birthday (if cash value is available)
- Continue coverage beyond the level premium period by paying increasing annual premiums and continue to build cash value to the policy anniversary nearest insured's 95th birthday, at which time the policy will end for the full face amount if the insured is then living

**Standing apart from
the crowd**

American General Life offers services and features unmatched in the industry.

- Not just 2 or 3, but 16 term durations for maximum customization, including up to 35 years (depending on issue age and tobacco use)

- ¹ AG ROP Select-a-Term accumulates a cash value that starts no later than the fifth policy year. At the end of the level premium period, the cash value of the in-force policy equals the total of cumulative premiums paid, less any charges for substandard ratings and riders. If the client surrenders the policy, this amount is paid out, minus any outstanding loan balance. Alternatively, the same amount may be rolled into a permanent plan of insurance should the insured be eligible for and choose to exercise the conversion option. Coverage may also be continued beyond the level premium period by payment of increasing annual premiums, and the policy will continue to build cash value until the policy anniversary nearest the insured's 95th birthday when the cash value will equal the face amount of the policy. The cash value, minus any outstanding loan balance, will then be distributed as the endowment benefit if the policy is in force and the insured is then living. The cash value and endowment benefit are subject to all terms and conditions detailed in the policy.
- ² Policy owners should consult a tax professional to determine if transaction is a taxable event.
- ³ The amount of paid-up life insurance and the reduced endowment amount are based on how much the cash value will buy when applied as a net single premium at the insured's age on the date of default.
- ⁴ See the riders for complete details. There may be a charge for each rider selected. Adding or deleting riders and increasing or decreasing coverage under existing riders can have tax consequences. Policy owners should consult a qualified tax advisor.
